

## #340 POP Display & Play Basketball Goal Assembly

### CONTENTS

1 Backboard  
1 hoop  
1 net  
4 legs  
3 poles  
(ball not included)  
4 long screws with nuts  
4 short screws with nuts  
1 disposable wrench  
1 disposable Phillips Head Screw Driver.

### TOOLS NEEDED

10mm Wrench  
(Comes with disposable wrench screw driver but we suggest using nut driver or socket driver)

### 1. ATTACH LEGS

First pair up two legs with holes that match in alignment to each other. Beginning with the legs with the holes higher up, attach to bottom end of pole as shown using two long screws and secure with nuts. Do the same with the other two legs with the lower set holes.

### 2. ADD CENTER AND TOP POLES

Push the center pole down into the bottom pole - and the top pole down into the center pole, with the basketball bracket on top.

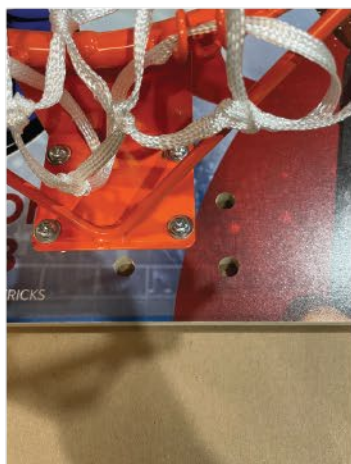

### 3. ADD NET TO BASKETBALL HOOP

Loop net ends through the corresponding hooks on the hoop - pull in towards center, and then let drop down into place as shown.

### 4. ATTACH HOOP AND BACKBOARD TO POLE BRACKET

Using 4 short screws and nuts, attach the hoop, through the 4 holes in the backboard, through the 4 holes in the top pole bracket.

### 5. SECURE WITH NUTS

-- and you're done!
